Estimate the difference in each problem.

The farmer had 27 sheep.
Last weekend he sold 13.
About how many sheep does
he have left?

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

Kim's book has 83 pages.
Yesterday, she read 32.
About how many pages does
Kim have left to read?

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

There were 75 students
eating breakfast. 44
finished and went to class.
About how many are still
eating?

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

There are 98 second
graders. On Monday, 17
were absent. About how
many second graders were
at school?

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

39 students were on the
playground. A class of 21
students went in. About
how many students are still
playing?

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

Bus 12 had 51 students on
it. At the first stop, 8
students got off. About how
many students were still on
the bus?

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

The Pueblos planted 66 rows
of corn. In the fall, they
harvested 59. About how
many rows of corn did they
lose to drought?

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

There were 93 days of
summer. It rained on 34
of those days. About how
many days were sunny?

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

Thank you!
